Chapter 2- About TRESP

The Government of Tripura with support from the World Bank has initiated a tribal focused, multi-sectoral project “Tripura Rural Economic Growth and Service Delivery Project (TRESP)”. The Project Development Objective is to enhance connectivity access to improved services and economic opportunities for tribal areas in Tripura. TRESP aims to expedite socio- economic development of Scheduled Tribes through a multi sectoral approach of sustainable livelihood and infrastructure development. While the project is covering 23 blocks for improving sustainable livelihoods and economic opportunity through connectivity for rural populations in identified aspirational blocks, a more intensive approach will be implemented in the aspirational blocks. Transport connectivity will be improved through a state-wide rural road improvement program in support of rural road efficiency and accessibility to social and economic amenities such as markets, schools, and other services. As a direct contribution to rural economic opportunity and enhanced inclusivity, the project will improve rural livelihoods via diversified production clusters and agriculture logistics including aggregation, storage facilities, and supply chain markets. In addition, quality education facility through teaching learning system will be supported in schools across the 23 blocks as well as school infrastructural support for 16 schools across 12 aspirational blocks.

The project is envisaged as multi-sectoral in nature, involving multiple implementing agencies. As the nodal agency, implementation arrangements under the project will be coordinated by the Tribal Welfare Department through a Society for TRESP (PMU). The Departments of Education (DoE), Public Works Department (PWD), Department of Agriculture (integrated with Directorate of Horticulture), Department of Fisheries, Animal Resources Development Department (ARDD) and Tripura Rural Livelihood Mission (TRLM) will be the Project Implementation Unit (PIUs) implementing different components of the project. TRESP will involve construction of educational buildings, rural roads and other market and post- harvest infrastructure through concerned PIUs. Besides, it will involve and support analytical studies and implementation support to TWD, besides in capacity building activities of TWD and line departments

Institution Building & Capacity Building (IBCB) component of TRESP will deal with enhancing the capacities of various community institutions like PGs, CLFs, FPOs through promoting capable and sensible community CLF/Block Officials, strengthening various systems, policies, guidelines, and protocols.

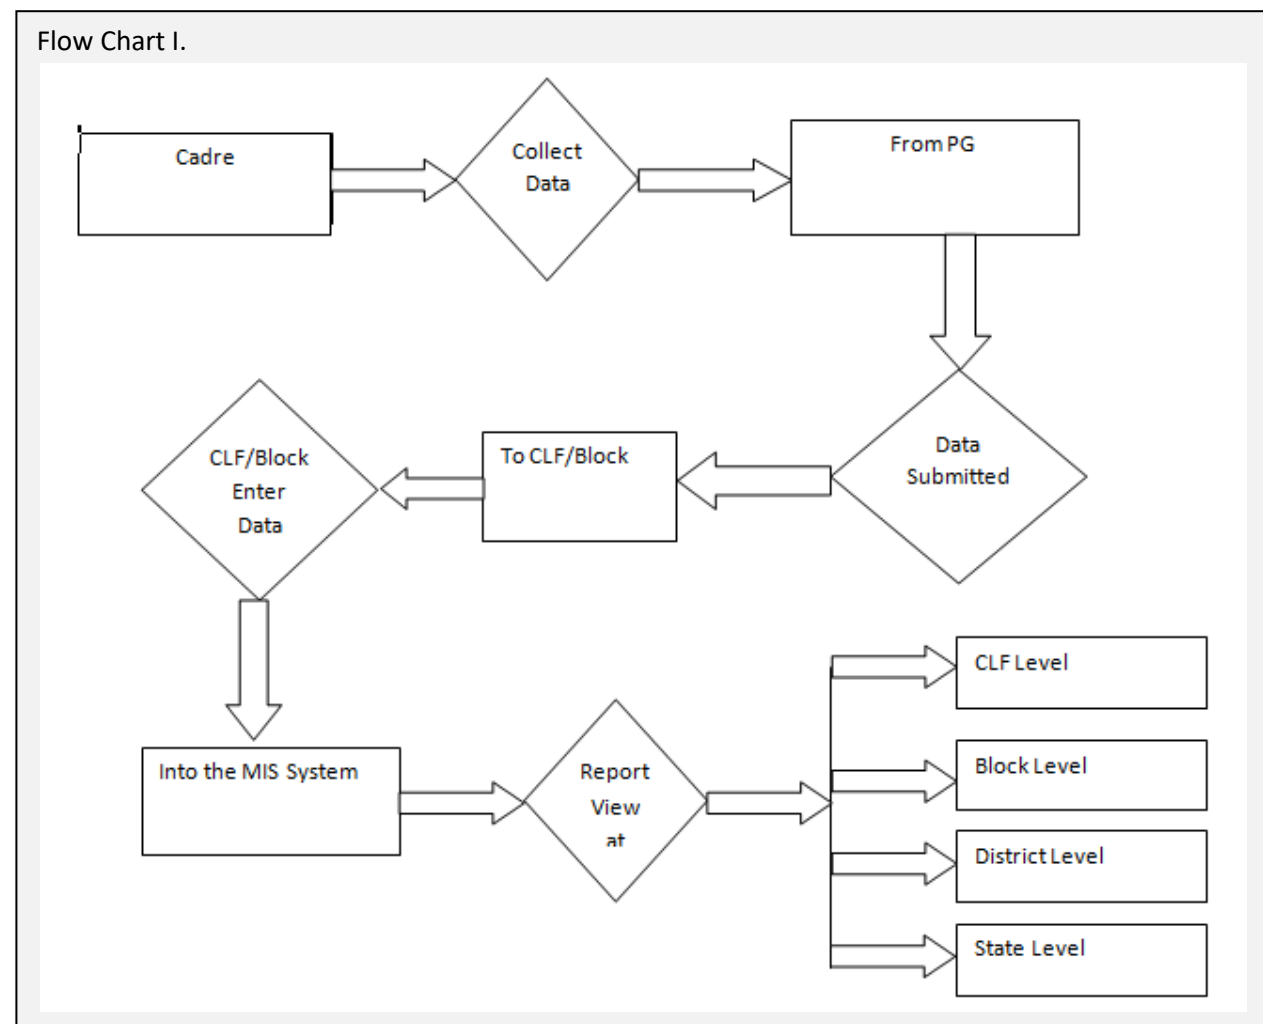

Chapter 3- Management information system

An MIS is a system that provides managers with the necessary information to make decisions about an organization's operations. The MIS gathers data from various sources and processes it to provide information tailored to the managers' and their staff's needs.

While businesses use different types of systems, they all share one common goal: to provide managers with the information to make better decisions. In today's fast-paced business environment, having access to accurate and timely information is critical for success. MIS allows managers to track performance indicators, identify trends, and make informed decisions about where to allocate resources.

PG MIS System:

PG MIS System will be implemented to record and to monitor the activities of the PGs at the CLF, Block, District and the State Levels by using the different credentials. This MIS system will guide the state, district, block and CLF officials to strengthen PGs by regular monitoring. The required data entry will be done at the PG levels by the concerned CLF/Block Officials. The steps of the process flow have been described below in the Flow Chart-I.

PG Registration form has been shown below in the Picture- I which is also attached in the Annexure- I for more details. PG Registration form is basically a physical form which will be provided to the concerned cadre to collect the data of PGs' Profile during the time of PG formation and to maintain the physical database. Also the CLF/Block Officials have to collect the data of the existing PGs from the field. It will be a onetime data entry form and hasn't to be updated until any change has been made in the respective PGs. Once the data is collected it has to be submitted to the CLF/Block. The Concerned CLF/Block official will update the data in the PG MIS Portal. The MIS form has been shown in the picture I.

This table shows the member details of the Goat PG. Similarly to get the details of the other PG the user has to click on the name of the PG.

Similarly all the indicators displayed in the dashboard contain detail information of the PGs. For example the dashboard contains the indicators “ARDD PG”. This indicator displays a value and to get the list of all the PG under this category the user has to click on the indicator. Similarly to get more detail the user has to follow the same process. The report formats have been attached in the annexure XV, XVI, XVII though this report format will be dynamic format and the user can manage this format as per requirement.

Similarly by using the credential of district, block, CLF the user can log in at district, block, and CLF level respectively. The authorized user of the block can monitor the PG activities of that particular district. Similarly the users at block and CLF level can monitor the activities of the respective block and CLF.

Chapter 3-Monthly Progress Report

Monthly Progress Report which is also known as MPR refers to the report of the PGs by which the growth or the progress of the PGs can be graded monthly wise. Each individual PG will have individual MPR and for the entire CLF there will be a collective MPR for all the PGs. By using the credential at CLF level the user can view the collective MPR as well as the individual MPR of the PGs of that concerned CLF. Similarly at the Block, District and State level there will be the collective MPR for Block, District and State respectively and by using the respective credential the user can view individual and the collective MPR as well. The formats of the MPR of individual PG and collective MPR have been shared below.

For more details annexure XV, XV, XVI, XVII, XVIII, XIX have been attached.

Individual PG MPR

1. Monthly Turn Over of the PG	The value is equal to the value of 6.4
2. Involvement of the PG member in the PG's input business	(Number of members procured inputs from the PG/Total PG Member) * 100
2. Involvement of the PG member in the PG's output business	(Number of members sold product to the PG/Total PG Member) * 100

PG MPR of CLF

1. Monthly Turn Over of the PGs under the CLF	Sum of the turnover of all the PGs under the CLF
2. Involvement of the PG member in the PG's input business	(Number of members of the CLF procured inputs from the PGs/Total PG Member in the CLF) * 100
2. Involvement of the PG member in the PG's output business	(Number of members of the CLF sold product to the PGs/Total PG Member in the CLF) * 100

PG MPR of Block

1. Monthly Turn Over of the PGs under the Block	Sum of the turnover of all the PGs under the CLF
2. Involvement of the PG member in the PG's input business	(Number of members of the Block procured inputs from the PGs/Total PG Member in the Block) * 100
2. Involvement of the PG member in the PG's output business	(Number of members of the Block sold product to the PGs/Total PG Member in the Block) * 100

PG MPR of District

1. Monthly Turn Over of the PGs under the Block	Sum of the turnover of all the PGs under the CLF
2. Involvement of the PG member in the PG's input business	(Number of members of the District procured inputs from the PGs/Total PG Member in the District) * 100
2. Involvement of the PG member in the PG's output	(Number of members of the District sold product to the PGs/Total PG Member in the

PG MPR of State

1. Monthly Turn Over of the PGs under the Block	Sum of the turnover of all the PGs under the CLF
2. Involvement of the PG member in the PG's input business	(Number of members of the State procured inputs from the PGs/Total PG Member in the State) * 100
2. Involvement of the PG member in the PG's output business	(Number of members of the State sold product to the PGs/Total PG Member in the State) * 100

This MPR will be generated automatically once the concerned CLF/Block official completes the monthly data entry process in the MIS portal.

Chapter 4 - Income and Expenditure

Income and expenditure of the PGs will be calculated at the end of the financial year. By calculating income and expenditure the PG can come to a conclusion of making profit or loss. The format to calculate income and expenditure is given below.

Income-Expenditure
Period : From To

Income	Expenditure
--------	-------------

Account head	Amount	Account head	Amount
Start up cost/ Establishment Cost Received	0	Total Establishment Cost Utilized	0
PG Membership fees	0	Total input procurement	0
Total Interest Received from PG members	0	Total Interest paid against the Loan	0
Total income for selling the product	0	Total Product Procurement	0
Total income for selling the input to the member	0	Recurring Expenditure	0
Total income for selling the input to the outsider	0		0
Total Income	0	Total expenditure	0
		Excess income over expenditure	0
Total	0	Total Turnover	0

Total Income = Start Up Cost/ Establishment Cost Received + Membership Fee + Total Interest Received from PG members + Total income for selling the input to the member + Total income for selling the input to the member + Total income for selling the input to the outsider.

Total = Total Income.

Total Expenditure = Total Establishment Cost Utilized + Total Interest paid against the Loan + Recurring Expenditure

Excess Income Over Expenditure (Profit) = Total Income – Total Expenditure

Total Turnover = Total Expenditure + Excess Income Over Expenditure
