Summary

Aspiring Software Developer with full-stack experience, skilled in C++, Python, and JavaScript. Proficient in React.js, Next.js, Flutter, REST APIs, and SQL databases. Strong in OOP concepts, clean code practices, and building scalable, user-focused applications.

Professional Experience

Assistant IT (App Developer) – Sayanant Development Services Pvt. Ltd. *Jan 2026 – Present*

- Developed and deployed an e-commerce delivery application **Chhimpei Chicken** using Flutter and REST APIs on Google Play Console, focused primarily on frontend development and UI/UX optimization.
- Implemented order listing, order tracking, and product viewing features, ensuring smooth user experience and responsive design.
- Currently developing a MIS Mobile Application by building core modules including dashboard and authentication (login) systems.

Software Development Intern – OrbitX Media Pvt. Ltd. *Jan 2025 – Jun 2025*

- Built and delivered frontend modules for 3+ client-requested projects, improving usability and client satisfaction.
- Led the frontend-backend integration of a cross-platform travel companion app using Flutter, Supabase, and PostgreSQL, enabling real-time group travel coordination for 1000+ users and secure bookings.
- Optimized database queries in collaboration with the backend team, reducing response latency by 30% and improving overall app performance.
- Participated in 15+ code reviews, raising team code quality and ensuring adherence to best practices and maintainability standards.

Technical Skills

- **Languages:** C/C++, Java, Python, JavaScript
- **Web / App:** HTML, CSS, Tailwind, Bootstrap, PHP, Django, React.js, Next.js, Flutter
- **Tools:** Git, GitHub, Notion, Trello, XAMPP, Supabase, Postman, Firebase
- **Other:** MySQL, PostgreSQL, AI & ML, DSA, DAA, Networking, Data Science, OS, Cybersecurity

Projects

Travel Companion Application *Flutter, Supabase, PostgreSQL* *Jan 2025 – Jun 2025*

- Designed a full-stack travel planning application with features for exploring packages, group travel coordination, and secure bookings.
- Integrated Supabase backend for real-time synchronization and PostgreSQL for structured data management.
- Implemented user authentication and row-level security policies to safeguard user data.

Movie Recommendation System *Next.js, TMDB API, Gemini API* *Aug 2024 – Dec 2024*

- Built a recommendation platform using server-side rendering in Next.js.
- Developed a dynamic questionnaire system to generate personalized suggestions using TMDB and Gemini APIs.

Expense Tracking System *PHP, JavaScript, Tailwind CSS, Chart.js, MySQL* *Jan 2024 – Jun 2024*

- Designed a web-based system to track expenses and visualize spending trends with Chart.js.
- Integrated responsive UI using Tailwind CSS and persistent data storage with MySQL.

Education

MCA, Jorhat Engineering College, Assam (ASTU) *Aug 2023 – Aug 2025*
CGPA: 8.42 (First Class with Honors)

BCA, Handique Girls' College (Gauhati University) *Aug 2019 – Jun 2022*
CGPA: 8.26
